

GRACE- Grazing and restoration of archipelago and coastal environments

## Final Seminar, GRACE Restoration of semi-natural habitats in the Swedish Archipelago

**The GRACE-project welcomes you to the Final Seminar of the project at 26<sup>th</sup> – 29<sup>th</sup> of August in Gothenburg, Sweden!**

The project LIFE09 NAT/SE/000345 GRACE is working with restorations on overgrown islands. The aim is to regain the high nature conservation values in 23 Natura 2000 sites by clearing, burning and grazing restoration actions. The challenge has been to handle the hard conditions on the islands as a consequence of difficulties in access. The seminar will be held in the city of Gothenburg. Excursions will go to Vendelsö (Halland) and Rörö (Öckerö).

Registration is open to the 30<sup>th</sup> of June 2015. Please mail [fanny.sahlen@lansstyrelsen.se](mailto:fanny.sahlen@lansstyrelsen.se)

### **Welcome!**

Partners - The County administration boards of Stockholm, Blekinge, Halland and Västra Götaland and The Archipelago foundation
